Pre-evaluation questionnaire

These questions and tests are for a standard IVF cycle. In special situations we may ask for additional tests.

Please answer what you know. Leave blank what you do not know.

Basic details

Full names (both partners)

Country of residence and preferred language

WhatsApp number and email

Woman: real age (your actual age, even if your identity papers show a different date of birth)

Woman: height, weight

Man: date of birth

Are you legally married? Since which year?

Pregnancy history

For how many months have you been trying?

Are periods regular? How many days between them? Date of last period

Previous pregnancies: birth, miscarriage, ectopic pregnancy, termination (year and outcome)

Previous treatment

Number of inseminations

Number of IVF attempts

For each attempt: year, medicines and doses, eggs collected, mature eggs, fertilised eggs

For each attempt: embryo day and grade, number transferred, result

Was genetic testing of embryos (PGT) done?

Do you have stored embryos, eggs or sperm?

Woman's health

Operations (cyst, endometriosis, fibroid, tubes, hysteroscopy, other)

Known diagnoses (endometriosis, PCOS, fibroids, thyroid, diabetes, clotting problem, other)

Current medicines, allergies, smoking and alcohol

Man's health

Has he fathered a child before?

Testicular, groin or varicocele operation; chemotherapy or radiotherapy

Medicines (including testosterone), smoking

Family history

Inherited conditions; are you related to each other?

Your question

What would you most like to know?

When are you thinking of coming?

Anything special we should know?

For example vaginismus, retrograde ejaculation, a known genetic or chromosome abnormality, or anything else

> ☐ We agree that the health information in this form and in the documents we send may be used by Dr. Aksoy and the coordinator for our pre-evaluation. Privacy notice: draksoyivf.com/kvkk/

Woman: name, date, signature

Man: name, date, signature

> Send the completed questionnaire and your results together: WhatsApp +90 507 380 28 05 or email contact@draksoyivf.com

The pre-evaluation is not a medical examination and no prescription is written at this stage. In Turkey, IVF is limited to married heterosexual couples using their own eggs and sperm.
